

SIDDHI BHANDARI

Java Backend Developer | Spring Boot | Microservices | Apache Kafka

Hyderabad, India | +91 8485875800 | bhandari.siddhi02@gmail.com | linkedin.com/in/siddhi-bhandari-2aaa02194

PROFESSIONAL SUMMARY

Java Backend Developer with **3+ years** of experience building scalable, secure backend systems using **Java, Spring Boot, RESTful APIs, Microservices, Apache Kafka** and **SQL**. Designed and delivered an incident management platform with OAuth2 authentication and role-based access control, and event-driven Kafka pipelines that cut processing latency by 45%. Additional experience in **Python** automation and **Security Engineering**, bringing a security-first mindset to backend development. Strong foundation in Data Structures, Algorithms, OOP and System Design; experienced in Agile/Scrum and code reviews. Available to join immediately.

TECHNICAL SKILLS

Languages: Java, Python, SQL

Backend & Frameworks: Spring Boot, RESTful APIs, Microservices, Apache Kafka, Event-Driven Architecture, OAuth2, RBAC

Databases: MySQL, Microsoft SQL Server, MongoDB

DevOps & Build: Docker, Maven, Git, GitHub Actions, CI/CD

Testing & Tools: JUnit, Postman, Jira, IntelliJ IDEA, Eclipse

Core CS: Data Structures & Algorithms, Object-Oriented Programming (OOP), System Design, Agile/Scrum, SDLC

Security Tools: CrowdStrike Falcon EDR, CrowdStrike NG-SIEM (CQL), Palo Alto Cortex XSOAR, Microsoft Sentinel, Microsoft Entra ID (Azure AD), Proofpoint, Rapid7, SailPoint, ServiceNow

PROFESSIONAL EXPERIENCE

Providence Global Center, Hyderabad

Jul 2021 – Sep 2026

Security Engineer 2

Apr 2024 – Sep 2026

- Designed and developed an **Incident Management System** using **Java, Spring Boot** and **SQL**, implementing **OAuth2** authentication, role-based access control and real-time alert tracking, reducing incident resolution time by 35%.
- Engineered **event-driven microservices** with **Spring Boot** and **Apache Kafka** to build real-time data processing pipelines, reducing end-to-end processing latency by 45%.
- Developed and enhanced automated incident response playbooks in Palo Alto Cortex XSOAR using **Python**, integrating multiple security platforms through APIs and reducing manual effort by 30%.
- Built an **Agentic AI** workflow to automate weekly metrics reporting, saving 3 hours per week and improving report accuracy by 25%.
- Built and optimized security dashboards in CrowdStrike NG-SIEM using CQL, turning large-scale telemetry into actionable insights for threat hunting, incident analysis and operational decisions.
- Performed 30+ **code reviews** and contributed to Scrum ceremonies and design discussions to maintain code quality.
- Conducted 15+ technical interviews and led internal learning sessions to strengthen team expertise.

Security Engineer

Nov 2022 – Mar 2024

- Developed **Python**-based automation for report generation, eliminating repetitive manual tasks and improving operational efficiency by 40%.
- Analyzed and prioritized security alerts from SIEM, EDR, email security and identity platforms, driving end-to-end investigation, containment and remediation.
- Used CrowdStrike Falcon EDR to investigate threats, contain compromised hosts and create custom IOAs for proactive threat detection.

Software Engineer

Jul 2021 – Oct 2022

- Delivered backend features across the full Agile SDLC, from requirements gathering and design to testing and deployment, in iterative sprints.
- Designed relational database schemas and wrote efficient **SQL** queries to support application features.

BlinkAds, Pune

Jan 2021 – May 2021

Software Engineer Intern

- Built and deployed a **Python**-based AI chatbot using NLTK to automate customer support and lead capture for a real estate platform.
- Performed application testing, bug fixing and deployment support to ensure reliable functionality across environments.

EDUCATION

Cummins College of Engineering, Pune

Jun 2018 – May 2021

Bachelor of Engineering in Computer Science

CGPA: 7.5

Government Polytechnic, Ahmednagar

Aug 2015 – Mar 2018

Diploma in Computer Science

89.06% (Gold Medalist)

ACHIEVEMENTS

- Providence "Bravo" Award (2024, 2025) | Persistent Systems "Kiran Scholar" Scholarship (2021)
